GENERAL INFORMATION

The Hunt County Appraisal District (CAD) is a political subdivision of the State of Texas created effective January 1, 1980. The provisions of the Texas Property Tax Code govern the legal, statutory, and administrative requirements of the appraisal district. An 8 member board of directors, appointed by vote of the governing bodies of the taxing authorities in the district, constitutes the district's governing body. The chief appraiser, appointed by the board of directors, is the chief administrator and chief executive officer of the appraisal district.

In 2017, the appraisal district appraised 68,015 parcels of property with a total value of \$9,100,975,634. All appraisals are completed by the internal staff and contract appraisers with the residential properties being appraised biannually and all others being appraised annually. PROPERTY TYPES AND VALUE DISTRIBUTION

Most of the tax units offer some level of homestead exemption to 19,801 residential homesteads in the county. All schools are required to grant a \$25,000 value exemption to regular homesteads and an additional \$10,000 of value to Over-65 and disabled persons. Other tax units may grant a percentage homestead up to 20% based on annual decisions by their governing body or voters. In addition, any amount of exemption may be set by tax units for the Over-65 or disabled including schools that would add on to the state mandated exemptions.

Approximately 23% of the county is totally exempt from taxation. Other than property owned by local taxing entities, The University of Texas A & M at Commerce is the largest valued exempt taxpayer. Other totally exempt properties include typical properties such as public schools, churches, city and county owned properties, and numerous charitable organizations.

New taxable value of \$173,321,755 was added to the tax rolls. This represented 1.9% of the Total Market Value. Of that new value, \$124,867,145 was in new residential property and Agricultural Properties added \$22,425,400. Commercial and industrial real properties added an additional \$37,572,780, and tangible personal business and industrial properties added \$8,456,430.

INTERNAL AND STATE RATIO STUDIES

The State Comptroller does a biennial ratio study. The last ratio study for the entire county was performed in 2015 and a summary is included in this report. The Median Level of Appraisal determined by the Comptroller was 99% with a coefficient of dispersion (COD) of 8.82. The price-related deferential (PRD) was 1.01. 2017 is a Property Value Study year, however, the results will not be released until December 2017.

The internal ratio study for the 2017 Residential Certified Values indicated a median sales ratio of 97.99%, a weighted mean of 95.73% and an average mean of 96.4%. The COD was 6.9191 and the PRD was 1.007. These internal ratios were performed using verified valid sales from the period July 1, 2016 thru June 30, 2017. These measurements meet the standards set by the International Association of Assessing Officers.

LEGISLATIVE CHANGES

The Texas Legislature meets in odd-numbered years. Presently there is a Special Session being conducted. At the present, we are not sure of which bills will be approved. Customarily, the Property Tax Assistance division of the Texas Comptroller of Public Accounts Office publishes a booklet explaining all the Texas Property Law Changes for that Legislative session. When available, a copy of that booklet will accompany this report.
